THE PROSPECTS FOR SETTLEMENT.

We will soon know what is going to be done by our legislature towards the settlement of the state debt. We take it that the republicans, with very few exceptions, will be willing to vote for a compromise, on the basis of at least fifty cents on the dollar, giving new bonds bearing six per cent. interest, the coupons receivable for taxes. Some of them, however, we know are opposed to paying more than four per cent. interest. How many of them will support the coupons for taxes they we do not know.

How is it with the democrats? There are 51 democrats elected to the legislature. The state credit democrats at Nashville claim, we believe, that of these, 26 are state credit, or Wright democrats, while 25 were elected as Wilson men. Wilson's platform favors the repudiation of the entire railroad debt of the state, amounting now, principal and interest, to say, \$18,000,000. The Wright platform commits the party against the policy of making the coupons of the new bonds receivable for taxes. The prominent men of that wing of the democratic party have been silent as to the amount they are willing to pay, but we have good reason to believe that a majority of them will oppose anything above fifty and four. There will then be three elements in the legislature. A majority of the republicans probably will favor a settlement which includes the coupons for taxes feature. A portion of the Wright democrats will favor fifty and four, the coupons not to be made receivable for taxes. The Wilson men will oppose any settlement that does not provide for the repudiation of the railroad bonds.

Now, with these three elements, what are the prospects? Would that we could avoid the conclusion, but to us the outlook is gloom.

We would not speak of it, but there is no use in closing our eyes to the facts. It is always best to look

them squarely in the face. It would be folly for us to close our eyes to the existence of a public sentiment in the state, that is not conducive to a speedy and honorable settlement of this vexed question. The real friends of the state credit to meet, and as a public journalist, it is our duty to notify them of the situation as we understand it. It would afford us great pleasure to be able to state that there was a unanimous sentiment among members of the legislature in favor of a prompt settlement with our creditors, on a thoroughly satisfactory basis. For years our voice has been for this. But the facts do not justify us in any such statement now. The outlook is not what we should like to see. It will take the united, persistent, untiring efforts of all the state credit men in Tennessee, of all parties, to secure a satisfactory result to ourselves, satisfactory to our creditors, satisfactory to the world and satisfactory to our children, who will be held in some sense responsible for our acts, when the men of to-day are dead and in their graves.

We called attention yesterday to a number of palpable misstatements in a letter written by Col. A. K. McClure, of the Philadelphia Times, from Nashville. Most of them are so directly opposite the truth, that every one, especially every Tennesseean recognizes them as wholly untrue at a glance. He made one other remark to which we desire to call attention. He speaks of the late Senator Brownlow as the "desperate Brownlow." This is a slander upon the illustrious dead, a man whose memory is dear to thousands of persons in and out of Tennessee. Here, at his old home, where he spent the major portion of a somewhat eventful life, he was respected and beloved by men of all parties. He was noted for his kindness, benevolence, freedom from every form of vice, for his unflinching integrity and his liberality to all classes of people. He was a broad-minded, humane Christian gentleman.

He was not a "desperate" man in any sense. He was a man of strong convictions and had the courage to follow them. Col. McClure's estimate of Gov. Brownlow's character was like many of his statements—so wide of the truth as to be absolutely false.

TENNESSEE is fortunate in having elected a governor in the person of Judge Hawkins, whose character for honesty and integrity is without reproach. He is a man who does his own thinking and who will be governed by his convictions of right. He will not be the tool of any ring or clique, but in all his official acts will be governed by what he believes the best interests of the people. Difficult questions are to be met and solved, but we have entire confidence that he will deal with them wisely and honestly. We believe that he will give us an administration which will command the approval of good men everywhere and of all parties. His course will doubtless add strength to his party and contribute to the material welfare of the state. While he has difficult questions to deal with, at the same time he has grand opportunities for good. If he succeeds as well as we expect him to, his name will go down in history as one of the best governors Tennessee has ever had.

Closing Exercises of Holston Seminary.

NEW MARKET, Dec. 27, 1880.

MR. EDITOR: It was my privilege to attend the closing exercises of Holston seminary. The examinations were very good, but the public exhibition was better. The preparatory and intermediate departments began their exercises at 2 o'clock p. m. Thursday, the 23d, opened with prayer by Rev. L. E. Jones, of the Presbyterian church. A respectable audience was well entertained, and the little folk acquitted themselves with credit, especially in music, which was most excellent, displaying the application and ability of Miss Annie S. Dick, music preceptor, and Prof. Massey, who had charge of this department. The audience were dismissed with benediction by Rev. J. H. Jennings, of the M. E. church, New Market circuit, until 9 o'clock, at which time they reassembled to withstand the thunderings of the collegists or advanced department.

The exercises were opened with music and prayer by Rev. R. Pierce, D. D., presiding elder of the Chattanooga district. First on the program was a declamation by Willie Meek, which was delivered in an eloquent manner. Next, came a recitation by Miss Lucy England, who did her part well. Then Miss Mollie

Dick appeared on the stage with an essay on "Earth's Battlefields," attracting attention by her graceful appearance, and still more by the thought and beauty of her composition. Miss Adie Meek then read an essay on "She, like those preceding her, reflected honor upon her teacher and praise to herself."

Here we are sorry to note the illness and absence of Miss Laura Dick, who is noted for success on the stage.

A very interesting debate followed, on the question, resolved, "That the World is Growing Morally Better."

The affirmative was discussed by Mr. C. H. Jennings and Miss Sallie England; the negative by Mr. C. H. Pierce and Miss Julia Eison.

Mr. C. H. Jennings produced good argument and, spoke well on the subject.

Mr. C. H. Pierce answered with historical facts and extended over a field of history in an eloquent style.

Miss Sallie England brought forth argument on the affirmative, which was not answered, showing a good knowledge of the subject.

Miss Julia Eison brought forth the closing piece on the negative, which was full of variety and spice.

While the judges were deciding, the Colportarian Journal was read by Miss Flora Neal, editress. The successful manner in which the paper was read needs no comment to those who heard it. Suffice to say, it would have done credit to any institution in the south, or even in the north.

The judges rendered a decision in favor of the affirmative in argument and the negative in delivery.

The next term begins the first Monday in January, 1881, and we hope to see a full school, and would urge those who wish a good education to come and take instruction from Prof. M. F. Fowler, principal, and Prof. L. H. Massey, assistant, both worthy young men.

The Presbyterian and Methodist Sunday schools had a union Sunday school sociable, Friday night, which was an enjoyable occasion.

Respectfully, **I. M. W.**
